

Greenwich University

A SCHOOL OF GREENWICH UNIVERSITY

BUILD BLOCK BRIEF · FALL 2026-27

Fashion Studio **VENTURE LANE**

Planning brief session 4 · build from session 8 · 25 students · 5 teams · courses: GFFM325, GFPM435, GFTD431, GFBI323, GFCB444, GFDE326, GFVD436, GFEF691, GFET692, GFDP683, GFPJ672, GFIT312, GFFD314, GFIF311, GCFE673

What your team is building

A small fashion line designed, made, marketed and sold — pattern, textile print, illustration, retail behaviour, virtual design — with a sustainability or labour angle; sales data and findings go to the authority.

ONE PROJECT, SEVERAL GRADEBOOKS

You submit **one** piece of work, and each course that marks it looks at a different dimension, out of 20. **At most eight courses mark one team file.** A course you take that falls outside those eight sets you a **lens note** instead — an individual piece on the same project from that course's angle, 3,000 words, same rubric, same 20 marks. No student carries more than two: from a third, that course marks your viva out of 30 instead.

YOUR MARKS FROM THIS PROJECT

30 the project — a team mark of 20 from each course that marks your file, plus your own viva of 10, held in class in session 14

30 the mid-term

40 the final

The three quizzes are practice and carry no marks.

This replaces coursework, not classes.

What each course marks

CODE	COURSE	WHAT THIS COURSE MARKS — 20 MARKS
GFFM325	Fashion Marketing and Merchandizing Iqra Mushtaq	This course marks the commercial side of the garment: the customer defined and evidenced, the range and price architecture, the cost sheet and margin, the channel chosen, the launch content and lookbook, and what the sales data says. 20 marks, team.
GFPM435	Basic Pattern Making Saad Qamar	This course marks the pattern: block accuracy against measurements, dart and style-line manipulation, seam allowances and notches, the graded set and cutting layout, the fit corrections recorded, and whether the finished garment matches the pattern issued. 20 marks, team.
GFTD431	Textile & Print Design 1 Maashal Salman	This course marks the textile: motif development and its sources, repeat construction, colourway and separation, the sample printed or dyed to standard, fastness checked, and whether the fabric used in the garment matches the approved strike-off. 20 marks, team.

CODE	COURSE	WHAT THIS COURSE MARKS — 20 MARKS
GFBI323	Basic Illustration To be assigned	This course marks the drawn work behind the offer: figure and proportion, garment detail and flats, rendering of the chosen fabric, consistency across the set, and whether the illustrations sell the product to the customer they were made for. 20 marks, team.
GFCB444	Retail Consumer Behavior Dr. Emad ul Karim	This course marks the consumer evidence behind the offer: the research question, the instrument, how participants were recruited and consented, the analysis of what shoppers said and did, and whether the pricing and channel decisions actually follow from it. 20 marks, team.
GFDE326	Principles of Design & Elements To be assigned	This course marks the design reasoning: the elements and principles chosen and why, colour decisions and their harmony, composition and hierarchy across the set, and whether the finished piece reads as one coherent design to somebody who was not in the room. 20 marks, team.
GFVD436	Virtual Design 1 To be assigned	This course marks the digital garment: avatar and measurement setup, pattern import and stitching, fabric parameters chosen and justified, texture and print placement, the fit read from the simulation, and the quality of the render and the tech pack. 20 marks, team.
GFEF691	Costume & Avant-garde Design Saad Qamar	This course marks the design proposition: the silhouette and its reasoning, the historical or avant-garde reference and what has been done with it, the technical drawings, and whether the costume could actually be built from what has been supplied. 20 marks, team.
GFET692	Dying & Print Technique Aliya Dittu	This course marks the surface: the dyeing or print technique chosen and why, the recipe and the process record, colour-fastness and repeatability, and the finished swatch set against the design intent. 20 marks, team.
GFPD683	Portfolio Development Mishel Asif	This course marks the portfolio as a piece of professional communication: sequence, edit, image quality, typography and captioning, and whether the work is presented in a form an employer or buyer would take seriously. 20 marks, team.

CODE	COURSE	WHAT THIS COURSE MARKS — 20 MARKS
GFPJ672	Fashion Research Project Abel Emmanuel / Iqra Mushtaq	This course marks the research: the question, the method chosen and why, the fieldwork actually done, the analysis, and whether the conclusions are the ones the evidence supports. 20 marks, team.
GFIT312	Introduction to Textile Mashaal Salman Noshervani	This course marks the material knowledge: fibre and fabric identification, the construction and its properties, suitability for the intended use, and whether the choices made in the project can be defended on the fabric's own terms. 20 marks, team.
GFFD314	Foundation Drawing Not Available	This course marks the drawing: proportion, line quality, the ability to draw the figure and the garment on it, and whether the drawings communicate the design to someone who has to make it. 20 marks, team.
GFIF311	Introduction to Fashion Tasneem Abdulla	This course marks the fashion literacy behind the project: the market it sits in, the customer it is for, the references it draws on, and whether the team can place their own work in the field they are entering. 20 marks, team.
GCFE673	Field Experience Aliza Moiz	This course marks the field record: the planned visits, the field log kept on each one, what was observed and how it changed the design, and the signed field plan (form F1). 20 marks, team.

What to hand in

- **GFFM325 Fashion Marketing and Merchandizing** — By session 12 a hosted, working storefront — site, Instagram shop or WhatsApp catalogue, built with AI tools — carrying the garment, its price, its lookbook and a way to order, with the one-page merchandising file and AI declaration.
- **GFPM435 Basic Pattern Making** — By session 12 the full pattern set — blocks, working pattern, graded sizes, cutting layout and construction notes — issued as a digital pack alongside the sewn garment, with AI declaration.
- **GFTD431 Textile & Print Design 1** — By session 12 the print pack — artwork in repeat, colourways, separations and written specification — with a printed length of fabric sufficient for the garment and a signed strike-off, filed with AI declaration.
- **GFBI323 Basic Illustration** — By session 12 an illustrated lookbook — croquis set, rendered figures, flats and cover — published as a hosted page built with AI tools, with the original artwork submitted and AI declaration filed.

BUILD BLOCK BRIEF · FALL 2026-27

Fashion Studio **VENTURE LANE**

continued

- **GFCB444 Retail Consumer Behavior** — By session 12 a hosted offer page carrying the tested proposition, its price and an ordering route, built with AI tools, together with the consumer research file — instrument, coded data and findings — and AI declaration.
- **GFDE326 Principles of Design & Elements** — By session 12 the design board set — element studies, colour system, composition development and the resolved piece — published as a hosted portfolio page built with AI tools, filed with AI declaration.
- **GFVD436 Virtual Design 1** — By session 12 the working project file, a rendered turntable or image set and the tech pack, published to a hosted product page built with AI tools and filed with AI declaration.
- **GFEF691 Costume & Avant-garde Design** — By session 12 the team files the concept boards, the flat and technical drawings, the fabric and trim specification, and a costed bill of materials.
- **GFET692 Dying & Print Technique** — By session 12 the team files the swatch book with every trial including the failures, the process record, and the specification a production unit could work from.
- **GFPD683 Portfolio Development** — By session 12 the team files the portfolio in the format it will be shown in, plus a one-page statement and the edit rationale for what was left out.
- **GFPJ672 Fashion Research Project** — By session 12 the team files the research report with its instrument, the raw material gathered, the analysis, and the recommendation the research leads to.
- **GFIT312 Introduction to Textile** — By session 12 the team files the fabric library with identification and test notes, and the material justification for every fabric used in the project.
- **GFFD314 Foundation Drawing** — By session 12 the team files the drawing set — figures, flats and details — at the standard the project needs, plus the sketchbook that led to it.
- **GFIF311 Introduction to Fashion** — By session 12 the team files the market and customer note, the reference research, and the positioning statement for the project.
- **GCFE673 Field Experience** — By Session 12 the field log and the signed field plans go into the Folio annex.

How big the file is

The written file is **3,000 words for every member**, plus or minus ten per cent — 15,000 words for a team of five, 12,000 for four, 9,000 for three — plus the artefacts: the evidence or data log with its instrument, interview notes and consent log, any program with its tests, the pitch deck, the AI declaration and the draft-to-final revision log. In the venture and client lanes the live thing itself is the largest artefact. Each member owns one section of 3,000 words with their name on it, one artefact they built, and one part they can defend alone at viva. A lens note is 3,000 words on the same project. The full format is in "The Build Block File — required format" in the kit.

BUILD BLOCK BRIEF · FALL 2026-27

Fashion Studio **VENTURE LANE**

continued

Dates

Session 4	28 Sep	Planning brief issued — twenty minutes of class: the brief, the Ideas Book and the format sheet. Teams locked since session 3. Choose the project, design the instrument or find the client, split the sections.
Guest session	Session 4, 5 or 6	A practitioner from outside the university speaks to your school, on whichever of those three sessions the speaker can make. Attendance is compulsory. Each student writes one page on it for their own file; it is not marked.
Session 7	19 Oct	One-page plan uploaded to the portal: the question, the instrument or the client charter, who owns what. Not marked — it is the gate. This week the convener merges the marking courses' requirements into the file's sections, so the team writes one document and not eight. Clients matched to teams.
Session 8	2 Nov	Build starts. Rubric issued, roles confirmed, team charter uploaded. Build-with-AI workshop for venture and client teams.
Session 9	9 Nov	Scope agreed with the convener. Client or subject confirmed. Your school arranges its industrial visit for some point between now and session 12.
Session 11	23 Nov	Draft review, inside a normal class: each course teacher sees the teams in their own section for about ten minutes each — show what exists, not what you plan. The convener samples three files per block.
Session 12	30 Nov	The artefact goes live or reaches its first complete state.
Session 13	7 Dec	Final file uploaded with its AI declaration. Venture teams evidence the first paying customer. Five of the twenty come off for each week the file is late, in every course marking it, and nothing is accepted after the Karachi Review.
Session 14	14-19 Dec	Vivas in class: each course holds its own, team by team, in its session-14 class — about three minutes per student, on your own part as that course sees it.
The Karachi Review	Tue 15 Dec	Your team exhibits at its own table, across the campus, all day. The day opens with a thirty-minute handover of studies to the public bodies who asked for them; press and industry attend. Ten panels — a teacher and an alumnus each — circulate the exhibition and score you at your table, about eight minutes a team. Not marked separately; the panel sheet goes to every course marking the file.
Weekend	—	Weekend cohorts hold all of the above in their Saturday and Sunday slots; the Karachi Review runs on a weekend afternoon.

Rules for this lane

BUILD BLOCK BRIEF · FALL 2026-27

Fashion Studio **VENTURE LANE**

continued

What counts as done

A live offer that a stranger could buy from, and at least one paying customer who is not a relative or a classmate, evidenced by a receipt or transaction record with the customer's identity removed.

Money

The University funds each venture team with Rs 25,000; how to draw it is announced by the Office of the Provost before Session 8. Every rupee in and out is accounted for, with receipts, in the venture file; unspent funds are returned. You may also raise sponsorship on top. The University is not a party to your venture and carries no liability for it.

Legal ground

No company is registered at this stage. You operate as a sole-proprietor offer, payments go through one team member's personal mobile wallet, and the University is not a party to your venture and carries no liability for it. You may not contract in the University's name.

Sign-off

Food, health, cosmetic and childcare offers need your course teacher's written approval before anything is offered for sale.

Marks

Your mark does not depend on how much you sell. It depends on the evidence behind the gap, the quality of what you built, what the market told you, and the honesty of your post-mortem. A venture that fails and is analysed well can earn full marks.

Using AI

You are expected to use Claude and similar tools — to research, to build, to draft, to model numbers. Three rules. Check everything a tool gives you before you use it, and record the check. Declare what you used in the AI declaration bound into the file, as the HEC *Framework on the Use of Generative AI Tools* (2026) requires. Be able to explain, at the viva, everything your team built. **Work you cannot explain is not credited to you.** Undeclared use, or use to fabricate data, references or results, is academic misconduct. Never put real client, patient or examinee data, or anything identifying a real person, into a tool.
